1. On 23 October the Chief, CI Staff, DDO, established a task force to conduct on a priority basis a thorough review of all Agency record material pertaining to the activities of the Warren Commission, Lee Harvey Oswald, the role of [ ] vis-a-vis the investigations of the assassination and other individuals of significant interest to the Commission and its activities. It is the goal of this task force to declassify these records to the maximum extent possible so as to permit the Agency to both respond on a timely basis and avoid duplicative work burdens in responding to the numerous requests for these records which have originated from both FOIA and Congressional sources. The DDA has committed himself to cooperate fully with CI in this important effort, and he has directed that a representative of both the Office of Security and the Information and Privacy Staff be detailed to the task force on a full-time basis. It is critically important that the task force be in a position to review all Agency material relating to this general subject. The Agency can ill afford to have relevant documents overlooked and not subject to this review and subsequent declassification exercise.

2. It is requested that you examine your file holdings to ensure that any material relating to the subjects identified above is made available promptly to Chief, CI Staff. The task force has as its goal the completion of its review by Friday, 31 October. In order to ensure that a complete search has been conducted, I would appreciate receiving from
